# RSView®32 Integration

## Overview

SeQent's RSView32 gateways monitor the specified alarms which match the defined conditions. Depending on the gateway, selected the actions may include:

⇒ Sending messages to wireless messaging destinations such as Cisco Instant Connect/ IPICS clients, Motorola MOTOTRBO digital two-way radios and mobile units, E-mail, pagers, smartphones and audible outputs.

⇒ Raising alarms in our alarming engine for dispatch and escalation to wireless devices.

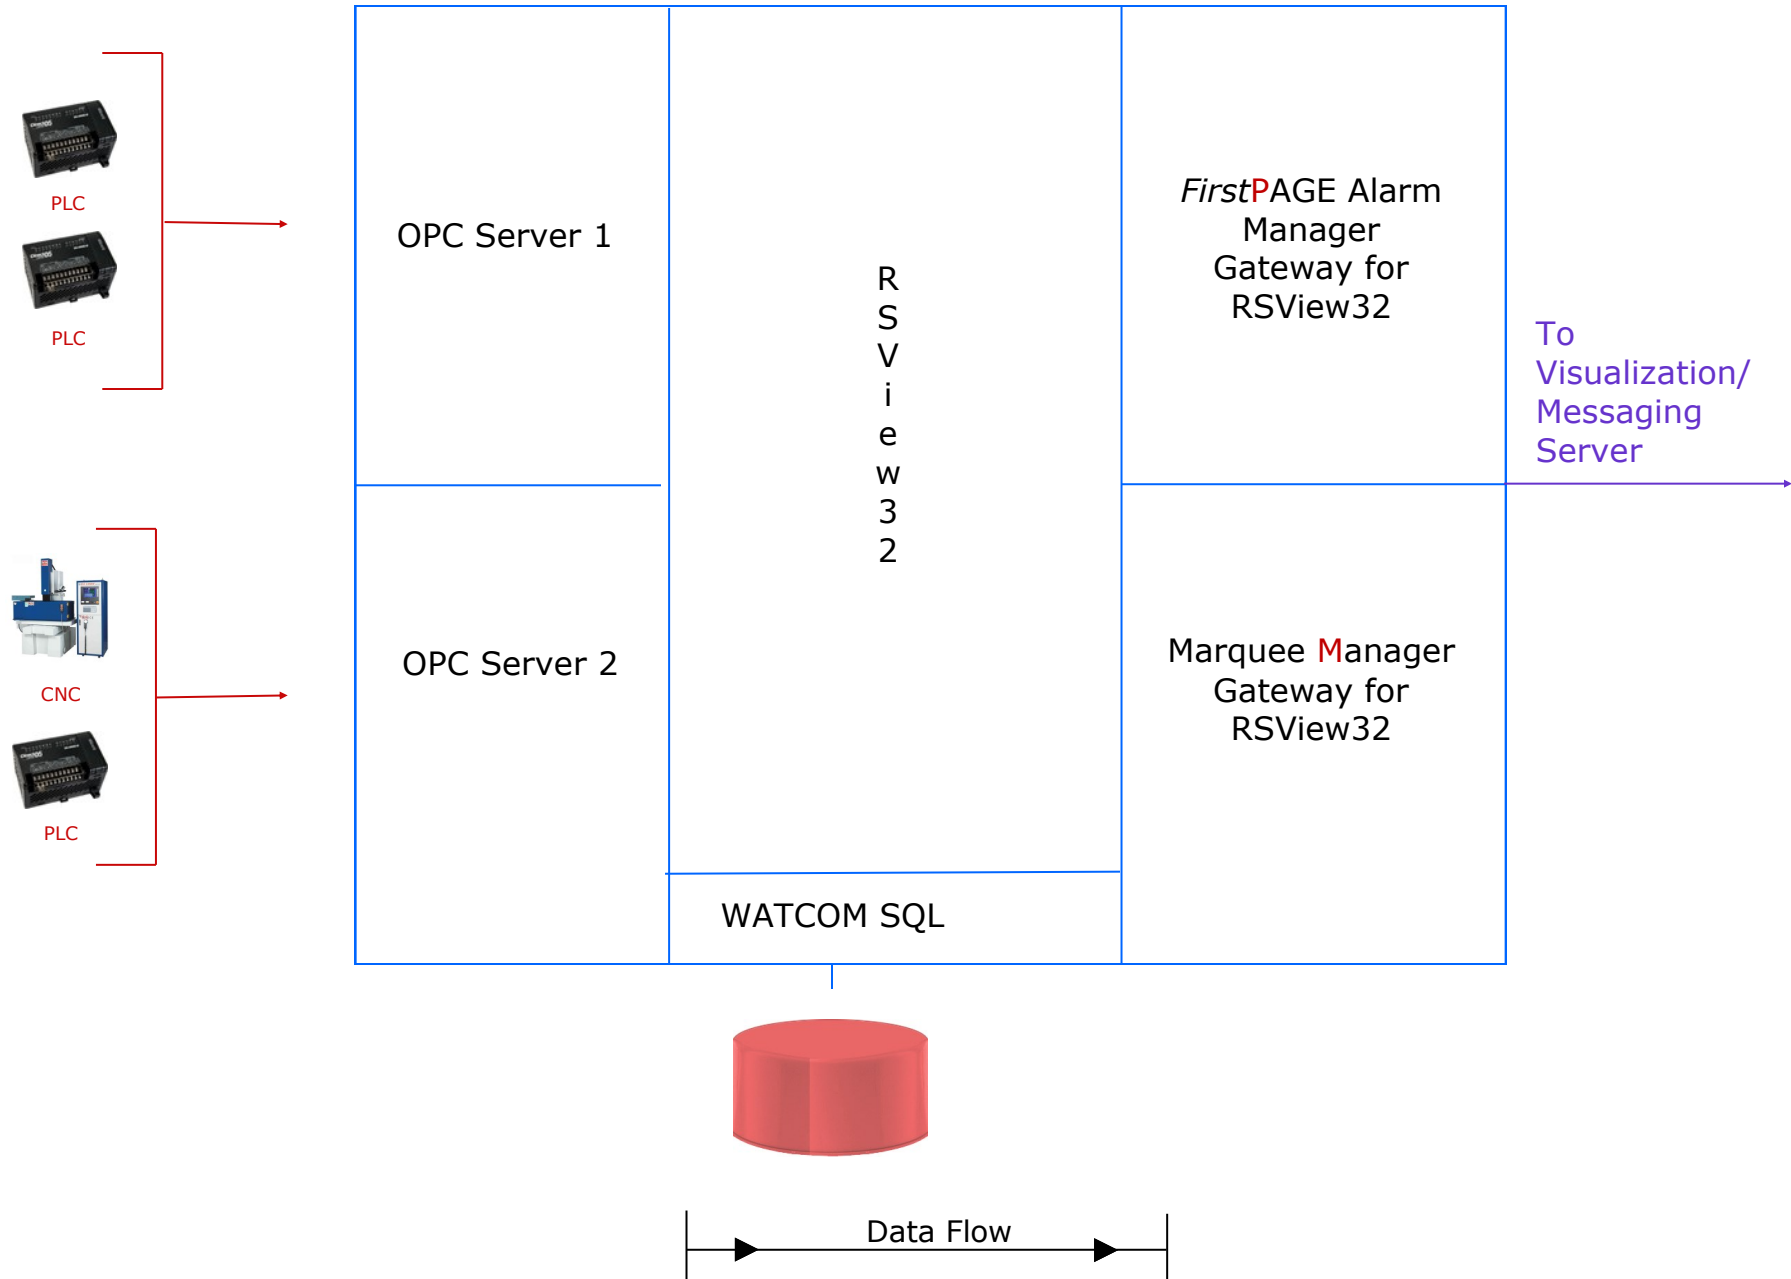

⇒ Sending messages to LED marquees, LCD/Plasma industrial digital signage or Andon displays as well as sounder devices.

SeQent's RSView32 gateways support all versions of RSView32 7.50 or higher.
