

SeQent is a leading industrial automation software provider and early pioneer in the Industrial Internet of Things (IIoT) space with over two decades of experience and thousands of installations worldwide. Our Wireless Alarm and Event Notification, Andon-Visual Display Management, and On-Premise Wi-Fi SMS solutions provide a bridge between industrial automation systems and communication devices.

Our solutions provide end-users with real-time access to and control over their operations by sending key information to Motorola Solutions' two-way radios, smartphones, PA speakers, pagers, LED/LCD displays, tablets, Zebra Workforce Connect clients and more.

The power of collaboration working for you

“We met SeQent at the 2017 Automation Fair® by Rockwell Automation in Houston. With assistance from our Rockwell Automation authorized distributor Border States Electric and our Motorola Solutions dealer Electronic Engineering, a formal introduction was made, and we successfully installed a turnkey solution that built a software bridge between our FactoryTalk® View SE HMI environment and our Motorola Capacity Plus two-way radio system. This solution has transformed our plant floor communication process, and SeQent has demonstrated a willingness to take Voice of Customer (VoC) requests and make the appropriate changes. For instance, we met with them at the 2018 Rockwell Automation TechED event in San Diego, and within a couple of months, our enhancement request was delivered, and the system is functioning as promised and expected.”

SeQent Products

FirstPAGE (FP)

Industrial Automated Messaging

The FirstPAGE Product Family provides an automated messaging platform that is capable of supporting thousands of messages per hour and distributes real-time information to communication devices.

FirstPAGE Alarm Manager (FPAM)

Alarm Notification Software

The FirstPAGE Alarm Manager Product Family manages the entire lifecycle of alarms or events and dispatches notifications to communication devices with automatic alarm escalation, message delay and repeat counts.

TeamCALL (TC)

Automated Dispatch and Scheduling

The TeamCALL Product Family automates the team member assignment, team member dispatch, scheduling and alarm/event monitoring with automatic reminders and escalation.

Marquee Manager (MM)

Andon – Visual Display Management

The Marquee Manager Product Family provides an innovative content management solution that publishes data in real-time for Mobile, LCD/LED displays and tablets.

VideoSERVER (VS)

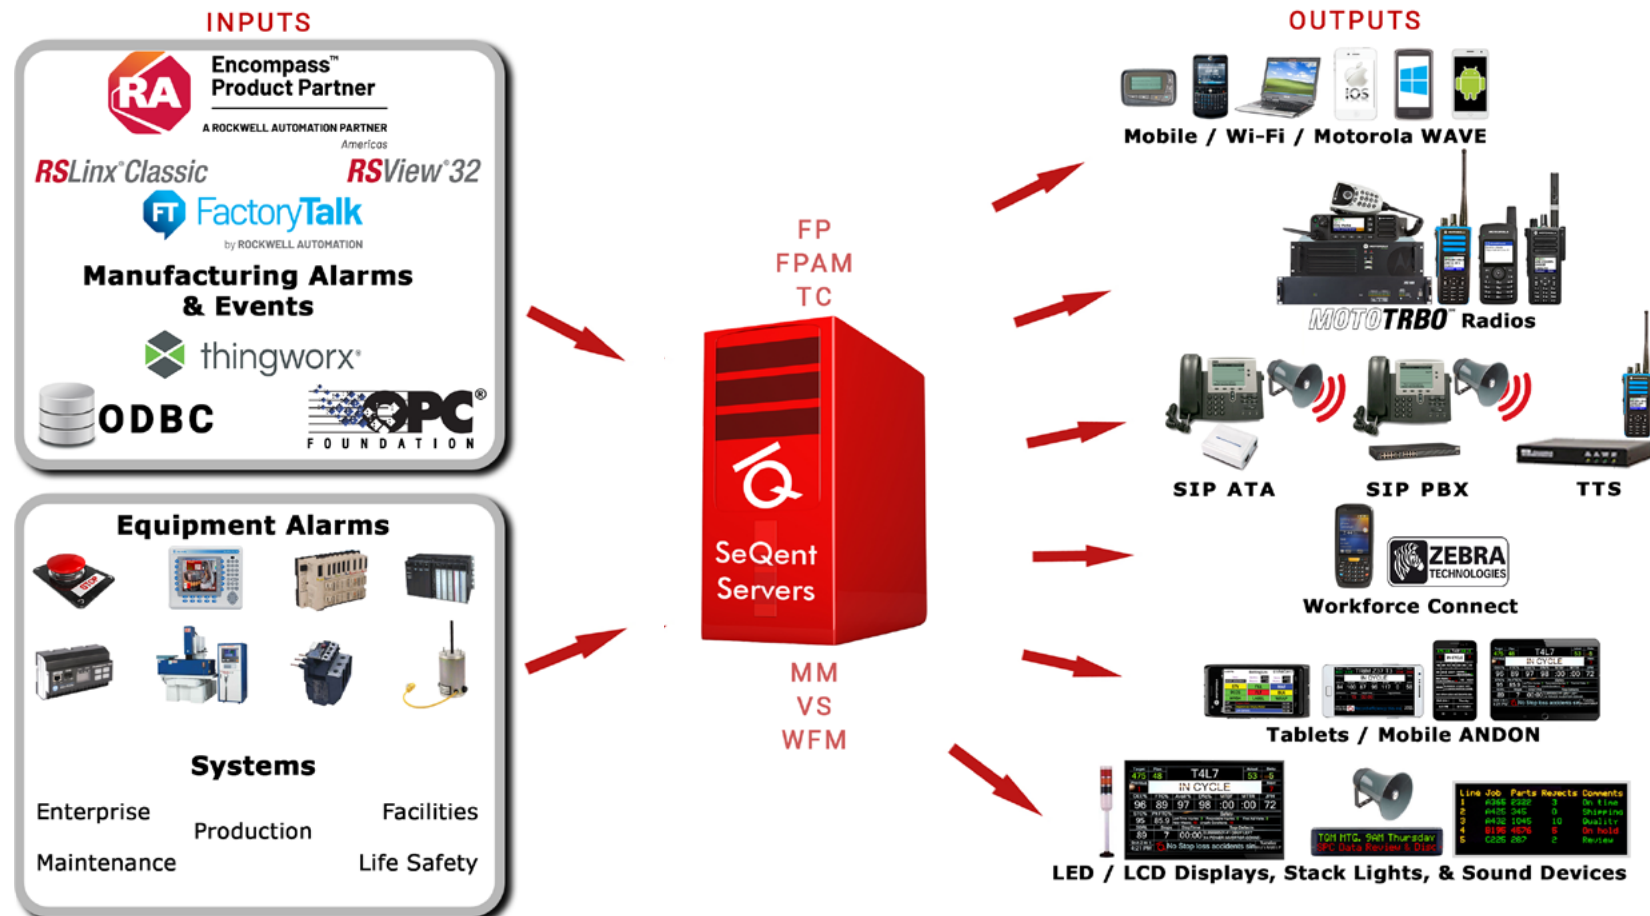

Digital Signage Content and Audio Control

The VideoSERVER Product Family allows for the control and customization of any display surface with text, graphics, and sounds while creating a common interface across all display types.

Wi-Fi Messenger (WFM)

Industrial Wi-Fi SMS Messaging Platform

The Wi-Fi Messenger Product Family provides an instantaneous, secure and reliable Wi-Fi messaging delivery system that eliminates mobile carrier coverage dependency.

Rockwell Automation PartnerNetwork™

The PartnerNetwork™ program is a framework of well-managed relationships formed as a result of customer need. It provides manufacturers with access to local, regional and worldwide networks of best-in-class suppliers. These specialists offer the industry experience and technological know-how to help solve business challenges both large and small. Through the PartnerNetwork™ program, Rockwell Automation delivers a wide array of solutions, easier access to knowledge and consistent delivery of solutions to help improve our customer's business results.
