# PARTNERSHIP OVERVIEW

SeQent's product lines, when coupled with AVEVA offerings, provide the industries most advanced, scalable, and user-friendly plant floor communication platform.

FirstPAGE and FirstPAGE Alarm Manager product lines tightly integrate with System Platform and InTouch HMI. This integration enables Alarms and Events to automatically escalate through a pre-defined hierarchy in real-time until the alarm is cleared.

The Marquee Manager and VideoSERVER product lines allow users to create Andon displays (LED/LCD) with Alarms and tags sourced directly from AVEVA products. This integration provides end-users with centralized management of data collection and business rule definitions. Integration with Schneider Electric EcoStruxure™ is also supported.

## ARCHITECTURE OVERVIEW

The architecture of the SeQent Real-Time Decision Solutions platform is very straightforward and comprised of three major components:
